

	Module 1 PSHE Lessons: 3	Module 2 Careers, Enterprise & Core Computing Lessons: 6 (3 x Careers & enterprise/ 3 x Computing)	Module 3 Citizenship Lessons: 3	Core RE Lessons: 3
Key Concepts	Students will investigate how antibiotics, immunisations and vaccinations work, look into various forms of extremism, study the long terms effects of having a young family/pros and cons of breastfeeding, and learn how to deal with exam stress	Students take part in a variety of activities designed to increase their awareness and understanding of the risks associated with online gambling (with a focus on computing and computational thinking). They also then consider how to plan for University, plan for the wider world of work and engage in mock interviews	Students develop an understanding of how their life is effected by a range of authorities controlled by the Government and other key people. By also focusing on the topics of diversity in the UK and also the diversity of the North West of England, students can develop their understanding of why our society is filled with people of many diverse backgrounds	Students develop an understanding of how life can be different in British society depending on where you live. By evaluating the diversity in the North West region of our society, students can reflect on their own identity and how they are similar and different to the many other people that live in towns and cities close by and also far away
